Look Better - Feel Better - Sleep Better

Visit our showroom to see the range of saunas and steam rooms with all the different equipment and lighting options on display. We have a working sauna and steam room for those interested in seeing how our products function.

Company Highlights:

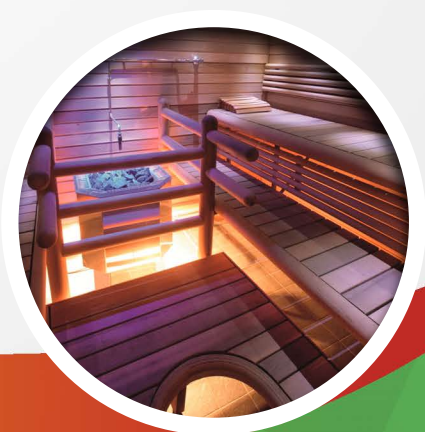

Finnleo Sauna & Steam is a family owned business with over 45 years of experience in the sauna industry both in Australia and Finland. We have a passion for building saunas and we are all sauna enthusiasts regularly using our own home saunas on a weekly basis throughout the year.

We are a Gold Medal performer, which was capped when awarded the prestigious contract for the Sydney 2000 Olympic Games. Finnleo was selected to supply many saunas into the athlete's village, training centre's and competition sites plus provide 24 hour support and maintenance. After the games finished we dismantled all the modular saunas as they were sold to lucky homes owners around Australia to enjoy a special unique piece of Olympic memorabilia. Although on a smaller scale, Finnleo was also awarded the contract to supply the saunas to the athlete village for the Melbourne 2006 Commonwealth Games.

Finnleo Sauna & Steam is the Australian agent for Helo Ltd, the world's largest manufacturer in the sauna industry. Helo is the #1 choice in Europe for any sauna and steam installation. Helo sauna equipment is proudly manufactured in Finland where they have a history dating back to 1916.

Busy days filled with small victories - victories that you might not realise. Find them, appreciate them, and discover a better sense of self, health and balance. Your way. We are all about that. You can do it too. Check it out. Now.
